Working gloves - with open rear and extra latex wrist band  
C90-022747A(11-B5D, 11-C5, 11-C5A, 12-C3, 12-S5H) F(2-B3, 2-F1A,  
3-E1, 4-C5, 4-F1)

A pair of working gloves is made by producing the basic glove (27) by knitting or sewing and by giving it a partial latex coating (29) by dipping a metal or porcelain moulded block with it in a latex liquid so that the rear of the glove remains uncoated along the contours (29a). Finally a knurled applicator wheel is used to apply a coating belt of latex around the wrist (30).

**ADVANTAGE**

These working gloves can be made at an attractive price and keep a firm hold around the wrist.
